

"I am a gerontology graduate student at McDaniel College. I am looking for older adults (55+) to participate in a research study to understand factors influencing older adults (55+) decision on receiving an Emergency Use Authorization (EUA) COVID-19 vaccine. Participants will answer survey questions about their self, their health, and reasons for receiving the COVID-19 vaccine. Responses will be kept completely anonymous. Please follow the link below to participate. There is also a phone-in option, where the survey is read. The survey is available in both English and Spanish. Thank you!"
