

CURBSIDE RECYCLING GUIDE

In the Tunxis Recycling region, clean food and beverage containers made of glass, metal or #1 through 7 plastics are collected for curbside recycling in various container sizes. (Check with your town or private hauler for more information.)

Place your recycling container at the curb the night before your recycling collection day. Do not leave at the curb for more than one day.

NOTE: Not all towns recycle all of these items. Additional items may also be collected at drop-off locations.
