## Neighborhood Watch Suspect Information Sheet

One of our goals for the neighborhood watch program is to provide an opportunity for the community to assist the police department by providing pertinent information regarding suspicious motor vehicle and people. Below you will find the routine questions that our officers will ask when responding to a suspicious person or vehicle call. We request that our citizens do not try to interfere or attempt to stop these people. What we ask is that they try to get the best description that they can without risking their safety.
